ABOUT ME

AI & ML Engineering student with a strong foundation in Machine Learning and Data Analysis, possessing hands on experience in building and deploying intelligent systems. Skilled in Python and Flask, I develop scalable web-based applications integrated with machine learning models to solve practical problems. Passionate about leveraging data-driven insights, I aim to create impactful AI solutions that address real-world challenges and contribute to technological advancement.

EDUCATION

Bachelor of Engineering, New Horizon College Of Engineering

10/2023 - Present

Course Work: Artificial Intelligence And Machine Learning

CGPA: 8.84

Pre University, Sri Vidyaniketan PU College

2021 - 2023

Percentage: 85.83

High School, Sri Vidyaniketan Public School

2010 - 2021

Percentage: 75

PROJECTS

AI-Based Early Warning System For Water Borne Diseases

Developed an AI-powered early warning system that uses Computer Vision (OpenCV) to analyze water images for pH, turbidity, and risk levels, and a Random Forest model to predict water-borne diseases based on user-reported symptoms, integrated into a Flask web application for real-time alerts.

AI-Based Resume Screening and Candidate Ranking System

Developed an NLP-based system to analyze PDF resumes and match them with job descriptions. Used TF-IDF and Cosine Similarity to compute similarity scores and automatically rank candidates. Implemented using Python, Flask, Scikit-learn, and SQLAlchemy.

AI Based Crop Recommendation System

Developed and deployed an AI-based Crop Recommendation System using a Random Forest model to predict suitable crops based on soil nutrients and climatic conditions, performing data preprocessing, feature analysis, and model evaluation to achieve high prediction accuracy through a Flask-based real-time web application

TECHNICAL SKILLS

- **Programming Languages** : Python, Java
- **Web Technologies** : HTML, CSS, JavaScript, Flask
- **Libraries & Tools** : NumPy, Pandas, Scikit-learn, OpenCv
- **ML Skills** : Supervised Learning, Data Analysis, Data Preprocessing, Model Evaluation

SOFT SKILLS

- Problem Solving
- Adaptability
- Continuous Learning
- Leadership
- Time Management
- Collaboration

CERTIFICATES

- JavaScript Essentials 1 - Cisco (2024)
- Python Language - Scaler (2025)
- Machine Learning - NPTEL (2025)

LANGUAGES

- English
- Hindi
- Kannada
- Telugu
