ABOUT ME

AI & ML Engineering student with a strong foundation in Machine Learning and Data Analysis, possessing hands on experience in building and deploying intelligent systems. Skilled in Python and Flask, I develop scalable web-based applications integrated with machine learning models to solve practical problems. Passionate about leveraging data-driven insights, I aim to create impactful AI solutions that address real-world challenges and contribute to technological advancement.

EDUCATION

Bachelor of Engineering , New Horizon College Of Engineering	10/2023 - Present
Course Work: Artificial Intelligence And Machine Learning	
CGPA: 8.84	
Pre University , Sri Vidyaniketan PU College	2021 - 2023
Percentage: 85.83	
High School , Sri Vidyaniketan Public School	2009 - 2021
Percentage: 75	

PROJECTS

AI-Based Early Warning System For Water Borne Diseases

- Developed an AI-powered system to detect potential water-borne disease risks
- Used OpenCV to analyze water images for parameters like pH and turbidity
- Built a Hybrid Random Forest model to predict diseases based on user symptoms
- Integrated the model into a Flask web application for real-time alerts
- Built using Python, OpenCV, Scikit-learn, Flask, React.js, Pandas, Supabase

AI-Based Resume Screening and Candidate Ranking System

- Designed an NLP-based system to automate resume screening
- Extracted and processed text from PDF resumes
- Implemented TF-IDF and Cosine Similarity to match resumes with job descriptions
- Generated similarity scores to rank candidates automatically
- Built using Python, Flask, Scikit-learn, and SQLAlchemy

TECHNICAL SKILLS

- **Programming Languages** : Python, Java
- **Web Technologies** : HTML, CSS, JavaScript, Flask
- **Libraries & Frameworks** : NumPy, Pandas, Scikit-learn, OpenCV
- **ML Skills** : Supervised Learning, Data Analysis, Data Preprocessing, Model Evaluation
- **Tools & Platforms**: Git, GitHub
- **Soft Skills**: Problem Solving, Teamwork, Leadership, Adaptability, Time Management

CERTIFICATES

- JavaScript Essentials 1 - Cisco (2024)
- Python Language – Scaler (2025)
- Machine Learning – NPTEL (2025)
- Git – Spoken Tutorial (2025)
